Client testimonials

Krest Facilitators P Ltd. have been one of the **most responsive**, pro-active and cost-effective companies. They have been our contractor for many years now and the service they have provided covers housekeeping items, office boys, Tea/Coffee vending machines and stationery. The team provides consistent standards along with being efficient, courteous and very helpful. You are supportive in meeting our needs and requirements and have an extremely flexible approach in relation to any of our urgent delivery requests eg. when we have visitors due into the office, and also accommodating quick back-fills for any absent office-boy. We would **whole-heartedly recommend** your name and would look forward to a continual relationship.

Anurag Grover

COO, Co-Founder
ELEVATE SERVICES

Krest is a **tremendous contributor** to the success of summer work projects in the school Building, 'on campus/ off campus' housing repair and renovation. Involved with Project execution, material supply; Krest work with **highest level of Honesty & Integrity** and **Quality** of their work consistently exceeded our expectations. Proactive post project completion for repair and replacement, instrumental in replacing a Common water boiler for On-Campus housing at a very short notice. I **highly recommend** them and any services they offer.

Harbir Bhadana
